## WORK EXPERIENCE

---

### TRUALTA | Remote

Jan. 2022 – Aug. 2024

Front End Developer

*Vue.js, JavaScript, Cypress, Laravel, SCSS, CSS, PHP, MySQL*

- Developed new features using HTML, CSS, Javascript and Vue.js integrated with a Laravel project.
- Performed code reviews, implemented automated tests using Cypress, and conducted cross-browser testing to ensure high-quality, bug-free code.
- Maintains, reviews and fixes bugs on this eLearning platform, improving the legacy code and preparing the frontend to be scalable.
- Produced proper documentation and testing, collaborating and sharing knowledge with team members in order to create and maintain a better process for the product.
- Actively participated in brainstorming sessions and meetings to ideate strategies for new features, working closely with cross-functional teams.
- Participated in an innovative "Certifications" program within Trualta's platform, enabling professional caregivers to earn specialized credentials through video lessons, articles, and rigorous assessments. This upskilling initiative helped caregivers develop expertise, demonstrate proficiency, and access better job opportunities.

### NextClient | Remote

Aug. 2019 – Dec. 2021

Front End Developer

*Wordpress, HTML, CSS, JavaScript, PHP*

- Hand coded over 50 custom WordPress themes from photoshop designs using PHP, JS, CSS, HTML and SQL and provided daily ticketing system task support for clients.
- Optimized websites to get high scores in Google Page Insights.
- Developed several pieces of code for the company that became used widespread including CSS animations and vanilla JS scripts.

### Académica TELMEX | Mexico City

April 2017 – May 2019

Front End Developer

*React.js, JavaScript, HTML, CSS, Bootstrap, Material Design, Laravel*

- Improved sales employees' performance and customer support experience by creating two web applications, "ConexionTI" and "Preguntame TELMEX," for staff and sales training.
- Developed "Visor BDT," a web application featuring a dynamic dashboard with data visualizations, aiding regional managers in decision-making.
